Paxlovid™

UPDATED EXPIRATION DATE EXTENSION NOTICE FOR PAXLOVID™

TAKE NOTE: Pfizer issued a correction to the expiration dates for PAXLOVID on June 14, 2023. Please refer only to the corrected extended expiration dates below in the updated table here.

Effective December 1, 2022, Health Canada authorized the **extension of the shelf-life for certain PAXLOVID packs**

This means that your medication can still be used after the printed expiration date, which can be found on both the carton and the individual blister cards.

To see if this applies to your PAXLOVID pack, check the expiration date ("EXP") and the lot number ("LOT") on the label and refer to the table on the back of this card for detailed date extensions.

Finding the expiration date on your PAXLOVID dose pack:

PrPAXLOVID™ (nirmatrelvir tablets; ritonavir tablets) is used in adults to treat mild-to-moderate coronavirus disease 2019 (COVID-19) in patients who:

- Have a positive result from a severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) viral testing and
- Have a high risk of getting severe COVID-19, including hospitalization or death.

If you want more information about PAXLOVID:

- Talk to your healthcare professional.
- Find the full product monograph that is prepared for healthcare professionals and includes the Patient Medication Information by visiting the Health Canada website (https://www.canada.ca/en/health-canada/services/drugs-health-products/drug-products/drug-product-database.html), the manufacturer's website (**www.pfizer.ca**), or by calling **1-800-463-6001.**
